### MEG AND SAM MARRYING

In some heartwarming news, Meg and Sam – familiar faces to many of us from the Enivya chats– are officially getting married! While they've always been friendly and active in the community, not many knew that they were already engaged. It's something they've kept pretty quiet until now, but we're excited to share it here in this upcoming edition.

Though it hasn't been the talk of every corner, a few folks had picked up on their growing connection over time. And now, with everything out in the open, there's a quiet sense of joy about what's ahead for them. The couple is currently planning their wedding, which is awesome.

We wish Meg and Sam all the happiness as they step into this new chapter together!

## Bibi got NUKED!?

Credit: Bibi

It was a regular day for Rounded when suddenly, AKrow pinged the Revive Ping role with a link to Bibi's livestream and said "Making a 14-Year-Old Freak Out (NOT CLICKBAIT!)". During the stream, AKrow did the unexpected and instantly donated 10,000 Robux to Bibi. Later, AKrow pinged everyone in his server, Rounded Entertainment, saying, "Doing something to this person in one moment (something big)", building suspense. Then he followed through and donated a massive 100,000 Robux. Bibi later said the gesture left her completely stunned. We want to also highlight that AKrow also sent her a 75 euro Super Chat.

"I cant believe i got my THIRD NUKEEE already!!! it was a week ago were i recieved my second nuke and that already had me freaking out, but with akrow he didnt ONLY nuke me..  
ge gave me 155k, and the cherry on top.. he tipped me another 75€!! I cant thank him enough

" – Bibi

"its so crazy how akrow is actually supporting bibi with his bare last robux and when he is becoming broke. so kind" – Rose

## Teo demotes two mods to cure boredom.?

On the evening of June 28, Teo said, "I need to do something to pass boredom." Hael responded with, "Damn, are you demoting M15 again? Gulp." Immediately after, Teo demoted M15X on the spot. Teo also demoted Envy along with M15X. Teo then said, "I should choose who to leave their faith to" and gave that authority to Dhaloi. Shortly after, Teo took the power back from Dhaloi and passed it to Southy. For about 30 minutes, the moderators were stripped of their roles. Finally, Southy gave up and told Teo to restore their moderator roles.

"teo demotes two mods to cure boredom" – Hael

"[@Mark Bollocks (but gay)] beans on a toast." – Envy

"Ughhh fineeee, I guess envy can be repromoted" – Southy

## **Line of Fire release date confirmed!**

The long-awaited WW2 trench shooter *Line of Fire* finally has confirmed release targets. According to AKrow, the alpha and beta are expected within 1 to 2 months, with a full release coming in 2 to 3 months—possibly sooner depending on development progress. [It's first of July as we are writing this]

*Line of Fire* will be a fast-paced, semi-realistic WW2-inspired trench shooter focused on straightforward, back-and-forth combat. The gameplay aims to be simple, intense, and enjoyable for all players. Mobile and potential controller support are also planned.

“For a quantum particle in a box, the first excited state ( $\Psi_2$ ) has zero value at the midpoint position in the box, so that the probability density of finding a particle at this point is exactly zero. Based on that, what is it that is wrong with the following reasoning? If the probability of finding a quantum particle at the midpoint is zero, the particle is never at this point, right? How does it come then that the particle can cross this point on its way from the left side to the right side of the box?” – **PureSancitus** [*Developer, Line of Fire*]

“honestly its probs gonna be really cool and i would like play it for a few days before my phone explodes and yeah pretty cool and uh pretty cool also the game is pretty cool and hope ots gonna be pretty cool” – **Blue**

## **Valentina gets BANNED from ROBLOX?!**

It was a *completely normal*, peaceful day on Enivyas when out of *NOWHERE*, Valentina BURSTS into the chat and says she got **BANNED ON ROBLOX**... for allegedly **FAKING IDENTITY DOCUMENTS**??? Like, HELLO?? WHAT EVEN???

Roblox really looked at her innocent little avatar and went, “Yeah, she’s DEFINITELY committing federal crimes.” EXCUSE ME??? She’s literally just building cafes and slaying outfits, not running a black-market passport ring!!

This is not just a ban. This is a TRAVESTY. This is the fall of justice. How are we living in a world where you can get banned for EXISTING TOO POWERFULLY??  
ROBLOX MODERATION, IF YOU’RE READING THIS: *UNBAN VALENTINA RIGHT NOW.*

“i cant believe roblox are romanphobic” – **Valentina**

## Anna gets addicted to Control Europe.!

On June 30, Anna told her members to play a game called *Control Europe* with AKrow. The game might seem like a random choice, but Anna said she's really addicted to it and can't stop playing. Which we suppose that Anna got Akrow addicted aswell. Anna has already asked her members to play the game with her twice, which shows how much she loves it and wants everyone else to join in too.

“You really love that game don’t you” – **Bibi**

“[Replying to Bibi] its so much funn” – **Anna**

“i was never allied with m15x wdym, i destroyed every country he had” – **Teo**
