Anna's poem

On the 15th of October the custom VC "drawing prison" was blessed by Anna's true poetic nature by writing (however we doubt the nature of this piece of literature) a poem for the members of this lovely voice channel.

We will miss you newspaper domain.

As many of you have heard, the beloved Newspaper domain, theroundivyantimes.wtf has left us unexpectedly. We are extremely saddened by this sudden event which will cause the Newspaper to be hosted by the https://valitha.github.io/newspaper/ domain.
However, we are uncertain on the continuity of the newspaper since NOTHING interesting, worthy, ever happens. Please do something interesting LEGAL to the server and you will be rewarded by… being part of something I guess?

Pet Appreciation

Cookie has been with us for a whopping 2 days! He has a twin named Cream (obviously) and he was given to us by a friend of my mom! At first we thought Cookie was a girl until we saw the truth, glup! Cookie is a smol car with a big appetite cause his main meals are Percy's leftovers! 😭 He's just about a month old but he's already full of energy running, jumping and eating all over the place. So excited to see him grow up with his brothers Percy & Cos

50mb limit

Credit: valentina

Why on earth can my university not handle files larger than 50mb? I would understand if this was just a word document, that is obviously obtuse. But why would they expect us to make 10 minute recorded presentations? Even at 480p the file size is over the 50mb limit. Then one might say just compress it! Sure, but im paying 9k a year, so should i have to compress it? NO, i shouldnt. In fact, it should be communicated in the spec. this would be a non-issue had i not needed to email this specific task, thats right... the uni systems dont even allow deadlines for INDIVIDUAL students. so they have to input it manually, but then the professor isnt allowed to compress the result. So will i fail becuase of this? probably knowing this dumb uni.

EVEN if you should compress it, how many of you reading this know how to use FFmpeg to compress a file? I imagine not many... And no, you cant just use some dodgy website harvesting your data either, because inputting that would include the professors original question, which is an intellectual property. So doing that is academic misconduct!!! BUT LIKE, if its such an issue then it should be communicated from the beginning like oh my days 🙄 . WORSE, I cant even just compress it and send it back in thgat form, becuase apparently that would also be misconduct; i cant do this anymore. free me. freeme. free me efer meem frem mfmemf msgdmfbdfjgs\jfjadfjsDGJSDFGSJFS
